

Derek Clontz System Protocol 1 4-oz Kit

Uncarine Max and Otoba Bark are the world's fastest-growing microbial-defense protocol for your toughest wellness challenges.

It's affordable and easy to take on a twice-daily schedule at less than half the price other companies charge for the same herbs. Depending on your age and weight, this is a 40- to 60-day supply for most people.

Note: Uncarine Max and Otoba Bark can be purchased separately in vegetarian-friendly, alcohol-free capsule form on our Web site under the category heading, Protocol Herb Singles.

Here's what you get in your protocol:

Uncarine Max (*Uncaria tomentosa*) 2-oz Liquid Extract from ecologically wildcrafted inner Cat's Claw bark. Each ounce contains 2 grams of cat's claw 4% guaranteed-potency extract.

Suggested Use: As a dietary supplement, mix 10-30 drops in 6-oz water and take 2 times a day between meals or as directed by your health care practitioner.

Ingredients: *Uncaria tomentosa* bark, Uncarine Max extract, pure cane alcohol (USP 50%–60%), and osmotic water. Minimum dry herb potency ratio: 1:3. Glass bottle with glass dropper (2 oz. net weight). One dropper full is approx. 30 drops.

Caution: Not for use during pregnancy or lactation. If you are taking medications or have a medical condition, consult with a health care professional before use. Keep this product out of the reach of children.

Otoba Bark (*Otoba parvifolia*) 2 oz. Liquid Extract from ecologically wildcrafted bark.

Suggested Use: 15 to 30 drops twice daily in 6-oz water between meals.

Ingredients: Otoba bark (*Otoba parvifolia*), pure sugar cane alcohol (USP 50%–60%), and osmotic water. Minimum dry herb potency ratio: 1:3. Glass bottle with glass dropper (2 oz. net weight). One dropper full is approx. 30 drops.

Caution: Not for use during pregnancy or lactation. If you are taking medications or have a medical condition, consult with a health care professional before use. Keep this product out of the reach of children.

Remember: Cane alcohol doesn't contain any sugar. Alcohol is sugar free by definition. It is simply derived from sugar cane and all sugar is eliminated in the process.
